

INTRO TO VOLKSFRONT

Over the last century the working class of European ancestry has been slowly vilified by the media, politicians, educators and entertainers. The White Working Class, which is the foundation of American economics, morality and spirituality has been dispossessed by it's enemies within and without. We are now a people without a nation, a folk with little prospects for future advancement. It is, in fact, doubtful if our race with survive to see the next millenium if current trends continue.

Although currently small, there is a growing movement of resistance to these forces which have subjected us to a bleak future of irrelevance and extinction.

Volksfront

Volksfront is an association whose purpose is to promote the interests of the European-American working class. We are beyond capitalism and communism and can be classified as neither "left" or "right".

Volksfront is run on true democratic principles, with all full members having a vote in the operation of the organization. We, unlike many "pro-White" groups, do not believe in blind obedience to one individual unconditionally, nor do we tolerate meglomaniacs in leadership positions.

Volksfront works for change in many different areas. We provide a mutli-front opposition to those who vilify and subjugate the White worker.

Economic Freedom

Volksfront promotes economic freedom by encouraging and supporting White-owned business and enterprise. We oppose the "right wing" exploitation of the worker for the benefit of the wealthy. We also oppose the exploitation of the White worker by the "left" who seek to create a totalitarian communist state on the backs of the working class.

Social Freedom

Volksfront promotes social freedom by sponsoring and hosting events where Whites can socialize and network with others of like mind. We promote music and entertainment which promotes working class pride and White heritage, creating an alternative to the "MTV" culture which degrades and vilifies our folk.

Political Freedom

Neither of the two "government approved" political parties accurately address the needs and concerns of the European-American or working class. Any opposition against the "status quo" is quickly smashed by the combined strength of media, entertainment, government, financial institutions and law enforcement. All of these institutions are openly or covertly controlled by Zionists and Zionist-controlled gentiles. Despite the immense pressure of the enemies of White autonomy and freedom, Volksfront has continually made strides promoting our folk, the labor struggle, our heritage and our values. We have been doing this since 1994 and have achieved things never thought possible by our enemies. We give the White Working Class a voice, although small, it is persistant and getting stronger daily. Together, with groups from around the world, we are forming an international coalition of resistance to the extinction and subjugation of the "White Race".

Locally, VF lobbies politicians about issues of concern to Whites. We distribute literature on issues of concern to us, we organize events to educate and entertain, we sponsor "prison outreach" programs to educate European-American prisoners and help them end the cycle of criminality which destroys our communities and families. We also maintain a web page with articles of relevance to Whites about politics, history, labor issues and race. By this diverse action on many levels we are slowly creating stronger leverage with city, state and federal leaders as more and more Whites realize the shambled state of our people and nation.
